

Working in the Countryside - A better work – life balance

Peaceful Blakenhall Park, just outside Barton under Needwood, has everything that you would expect to find in a modern office complex – and then a whole lot more.

George Finch of Medium Rare, one of the UK's leading providers of traditionally reared meat and poultry, explained that the location was perfect for a modern business, saying:

“Communication, with the A38 just

down the road, is easy. These are top quality offices and it's a far better working environment in this stunning setting than stuck in a busy town with a traffic jam every morning.”

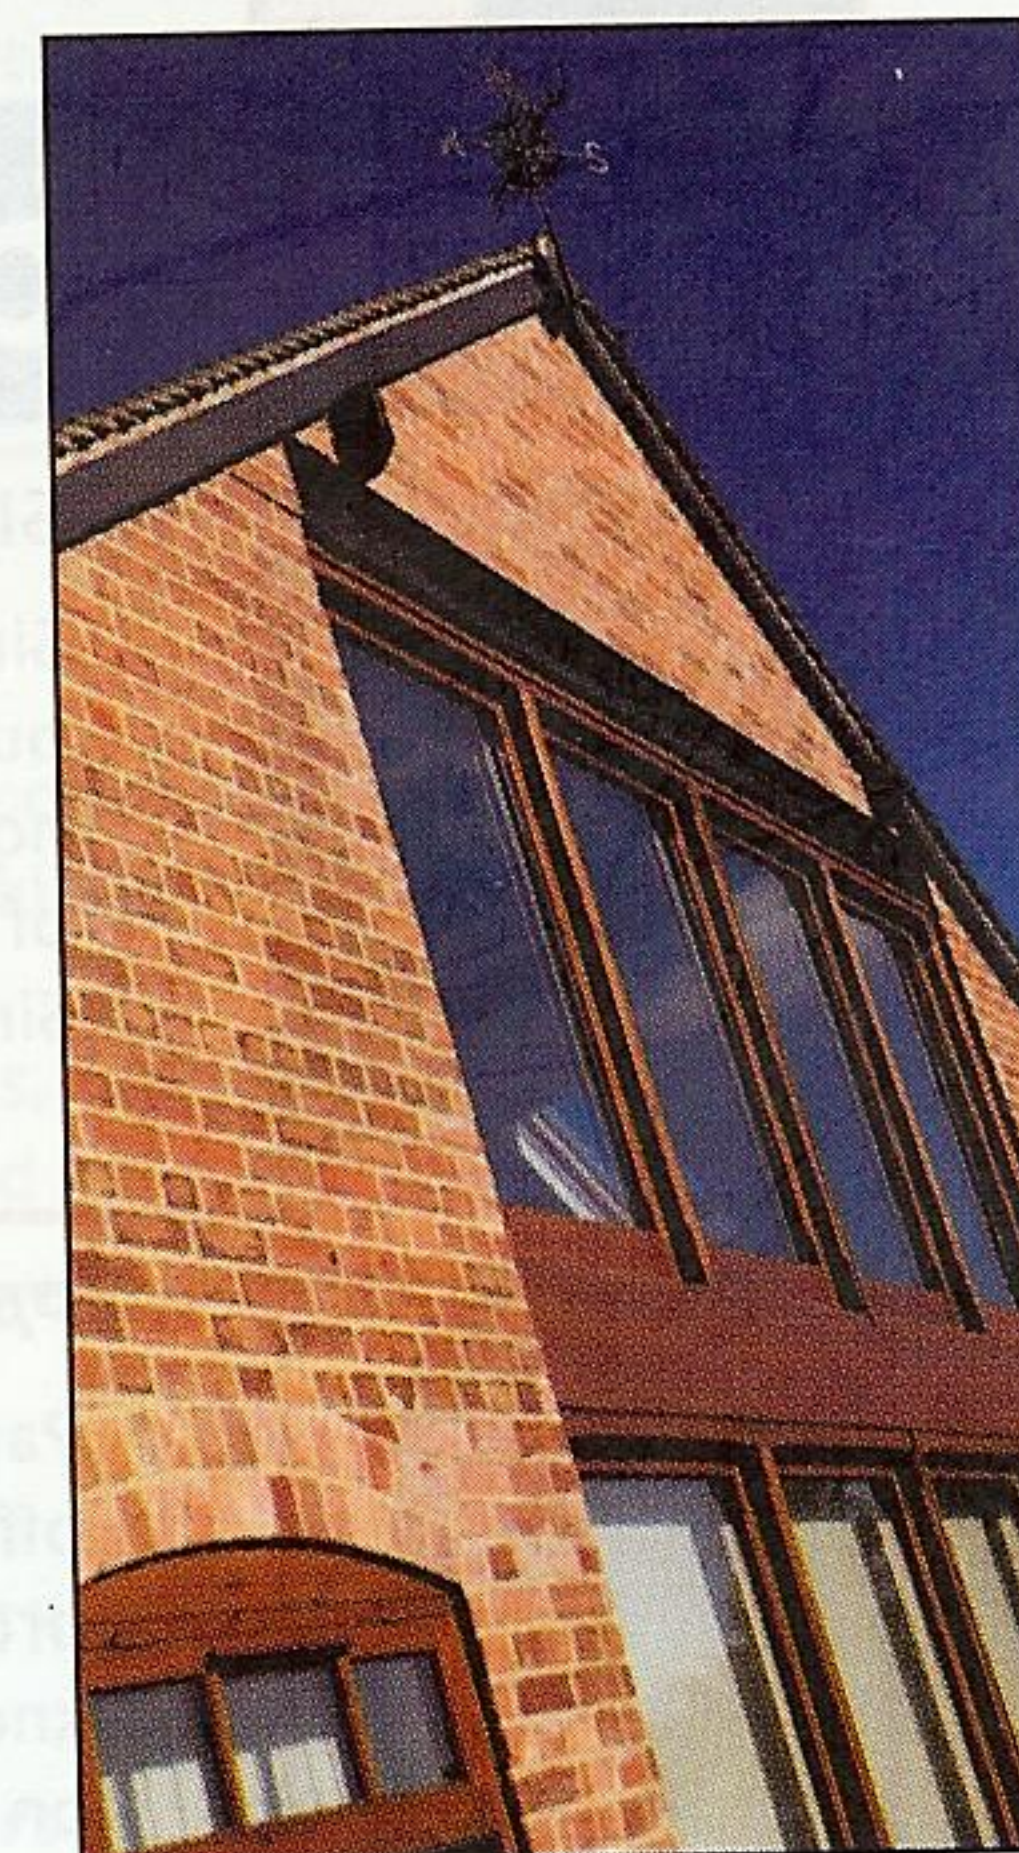

Former farm outbuildings dating back to 1649 have been sympathetically converted into high

quality office accommodation in a tranquil location, a world away from city grime, congestion and pollution.

These highly individual office units incorporate many original features and are situated around a traditional courtyard. An adjacent picnic area and plenty of open countryside for a lunchtime stroll are an added bonus.

The Blakenhall business community is

going from strength to strength and a range of different offices and service options are available. Units can be adapted to suit individual needs and additional facilities, such as storage, are also available.
